

## About Us

Our insulated fiberglass blinds are built to last! Base model blinds include Aluminum Extruded Cargo Door with Paddle Door Lock, Hinged Glass Windows with One Hand Operation, Diamond Plate Rain Guards and Sharpshooter Shelving. Our Classic Boss Blinds do not contain ANY WOOD PRODUCTS. We use a synthetic floor system that outlasts all the rest. Optional Upgrades include our Ranch Package (Carpet on Floor and Walls, Vertical Slide Windows, Magazine Rack, Hooks and LED Lighting), Molded Fiberglass Shelving, Archery Windows, and More. We offer an unlimited amount of customization. If you want it, we can build it...any size blind and any optional equipment. See our Website, Facebook, and Instagram for photo galleries of custom projects.

Always remember, with a Boss...  
"It's Just Built Better..."
